

I was suffering from Coronavirus on the day of my TOEFL exam, so that I couldn't perform well. You can see that I did poorly in my reading section, which was my most vital skill due to my sickness. It took me three weeks to recover from my illness. I should complete my other requirements weeks and I registered for 11 December 2021 exam and my reading in the new one is 27 and listening 28. But, my exams report has not been ready yet.
